

School Closure

Coronavirus

Most schools are closing to most pupils, at the end of the day on Friday 20th March because of the Coronavirus.

Coronavirus can pass from one person to another.

Coronavirus can pass more easily in big groups.

It is best to not be in a big group.

School is closing for most children. This means that there will not be big groups in school anymore.

The groups will be smaller. This is safer.

Some teachers and adults in school will be at home. I may be taught by someone different. I may be in a different room, with different year groups.

This is okay.

The adults will let me know what to do and where I need to go.

While I am in school, although it will feel different, the rules will still be the same.

I will still need to be polite and kind to others.

I will still need to do my best.

I will still need to be careful
about spreading germs.

If I have a temperature or cough,
I will have to stay at home until I
am better.

Everybody wants me to be happy
and healthy.

When everybody starts to feel
better, it will be okay to be in big
groups again.

My school will be open again.

Things will go back to normal and I will see all my teachers and the rest of my class-mates again!
