

## Key Knowledge

Rural, urban and coastal places look different to each other.

You will find barnacles, anemones, hermit crabs and seaweed in rock pools.

Waves roll in and out of the shore all of the time. The tide moves in and out twice a day.

Beaches need protection against flooding. There are lots of barriers in Deal.

People can look after the coast by putting their rubbish in the bin. Rubbish ruins the look of the beach and can harm wildlife.

## Key Vocabulary and Phrases

### Rock Pool

A rock pool is a small area of sea water, surrounded by rocks.

### Habitat
