

Early Years Foundation Stage
Term: 4

What are we learning this term?

This term we are learning all about the life cycles of a frogs. We will take a stroll up to the school pond and take photos of all the things we find. We will be keeping frogs spawn in class so we can observe first hand tadpoles in action. As a hook to life cycles, we will be reading the tadpoles promise and creating some frog themed art. As the weather is becoming warmer and we are now in March we will be learning about Spring and all the lovely elements that make Spring such an enjoyable time of year. As we have finished phase 2 and 3 phonics we will be going over both phases and really concentrating on those blending and segmenting skills now. There will also be a big push on tricky words this term. In Maths we will be going over number recognition and introduce higher double digit numbers. Alongside recapping adding and number sentences we will introduce taking away.

Our Vision Wheel:

Determined
Independent
Responsible

Positive
Independent
Successful

Key vocabulary for this term

English

- Life cycle
- Capital letters
- Full stops
- Finger space

Maths

- penny
- copper
